Казакстан, г. Алматы, e-mail: samat.1991@mail.ru

Научный кружок студентов и молодых ученых «Археолог»

The student scientific group "Archaeologist" is part of the department of Archeology, ethnology and museology of the faculty of History, archeology and ethnology of the Al-Farabi Kazakh national university.

Student scientific circle is a form of organization of scientific activity of students, which is expressed in attracting students to scientific work, facilitating the choice of a scientific direction, holding scientific sessions, listening to and discussing reports, participating in student scientific events of various levels.

The main goals of the student scientific circle "Archaeologist" are acquaintance with new materials concerning archaeological monuments of Kazakhstan and a peculiar analysis of their research results. And also, the creation and development of favorable conditions for the formation of graduates by intensifying the research activities of students, their participation in scientific research conducted at the Al-Farabi Kazakh national university; providing an opportunity for each student to realize his right to the creative development of the individual in accordance with his abilities and needs.

The main tasks of the student scientific circle are:

- Assistance in raising the level of scientific training of students;

- improving the quality of vocational training for young scientists;

- creating conditions for the formation of creative activity;

- assistance to students in independent scientific search and organizational support of their scientific work;

- timely informing students about planned scientific conferences, competitions, exhibitions and so on and about the possibility of participating in them.

- Conducting scientific and practical research and scientific and practical activities on the topic of research work of the department, faculty, university, including contractual leaders of the circles – high-level faculty, ready to share their knowledge and help in choosing a scientific direction for young scientists.

Round-table discussions, debates, meetings and various events are held in the student scientific circle "Archaeologist". Members of the student's scientific circle write reports on the topic of interest to them, participate in conferences of different levels. For example, they took part in the international scientific

conference of students and young scientists "Farabi Alemi" and won prizes. In 2017, the winners of these prize places defended their scientific projects and were awarded with diplomas of the Ministry of education and science of the Republic of Kazakhstan, namely Zhapsarbai Magza, Esbay Serikbol, Shagatayeva Ayaulym.

In March 2018, members of the student scientific circle took part and took 2 places in the Republican Subject Student olympiad among students of higher educational institutions of the Republic of Kazakhstan in the specialty "Archeology and ethnology", which was held on the basis of the Al-Farabi Kazakh national university faculty of History, archeology and ethnology.

In early April 2018, students such as Akkalieva Aybobek, Kurakbayev Maksat, Zharylgasinoва Bibinur, Kenesov Akezhan took prizes in the

international scientific conference of students and young scientists "Farabi Alemi".

At the end of April 2018, members of the student scientific circle Kenesov Akezhan, Zharylgasinoва Bibinur, Nurtai Kunbek took part and took 3rd place in the International subject student's olympiad in the specialty "Archeology and ethnology", which was held on the basis of the L.N. Gumilev Eurasian national university.

The students of the "Archaeologist" are students of the specialty "Archeology and Ethnology" of the department of Archeology, ethnology and museology of the faculty of History, archeology and ethnology of the Al-Farabi Kazakh national university. Recording in scientific circles is carried out constantly during the academic year at the department of Archeology, ethnology and museology of the Al-Farabi Kazakh national university.
